

PARIKH AI

Job Title: Associate - Data & Artificial Intelligence

Location: Houston, TX

Company: Parikh AI

About Us:

At Parikh AI, we are dedicated to harnessing the transformative power of technology to propel businesses towards success. Founded by a team of visionary entrepreneurs and AI enthusiasts, we stand at the forefront of the AI revolution. Our diverse team, consisting of experts in machine learning, data science, business strategy, and industry-specific applications, shares a unified passion for innovation. Together, we constantly push the boundaries of AI, delivering solutions that are both intelligent and practical, ensuring tangible impact for our clients. Our mission is to empower businesses with state-of-the-art artificial intelligence solutions that enhance decision-making, optimize operations, and foster innovation. We are committed to delivering exceptional value through our deep expertise, advanced technology, and a customer-centric approach. By bridging the gap between complex AI technologies and their practical applications, we make these advancements accessible and valuable for businesses of all sizes and industries. Our goal is to contribute to a future where AI empowers businesses to achieve unprecedented levels of efficiency, productivity, and growth.

Position Summary:

We help clients transform their business by architecting organizational intelligence programs and differentiated strategies to win in their chosen markets. We are seeking a highly motivated Associate to join our Artificial Intelligence (AI) team. The ideal candidate will have a strong foundation in AI and machine learning, coupled with a passion for problem-solving and a keen interest in the latest advancements in the field.

In this role, you will play a crucial part in supporting the development and implementation of AI-driven solutions that enhance our business processes and deliver value to our clients. As an AI Associate, you will collaborate closely with cross-functional teams, including data scientists, software engineers, and business analysts, to design, test, and refine AI models and algorithms. This position offers a unique opportunity to work on cutting-edge projects and develop your expertise in a fast-paced, innovation-driven environment.

Key Responsibilities:

- Responsible for the design, implementation and maintenance of modules or features of an application product, working according to specifications and project plans.

PARIKH AI

- Work on large, complex activities, using demonstrated creativity and expertise applying specialist professional knowledge to deliver high quality results / technical solutions.
- Design, implement and test complex AI-empowered systems to solve business challenges.
- Validate machine learning use cases through proof-of-concepts
- Technology exploration for new AI and technology trends.
- Participate in development life cycle activities like design, coding, testing and production release.

Qualifications:

- **AI/ML Expertise:** Proven experience working with AI/ML platforms and algorithms, with the ability to apply these technologies to solve complex business problems.
- **Collaborative Approach:** Experience collaborating with domain experts, researchers, and stakeholders to meet diverse data analytics needs across various applications.
- **Technical Adaptability:** Strong ability to learn and adapt to new technologies, enabling the development of new capabilities or the enhancement of existing ones.
- **Strategic Partnerships:** Demonstrated success in partnering with enterprise software vendors and consulting firms to expand service offerings and drive growth.
- **Communication & Negotiation:** Excellent communication, negotiation, and interpersonal skills, with a talent for influencing and engaging clients at all organizational levels.
- **Educational Background:** Bachelor's degree in Business, Computer Science, or a related field is preferred.
- **Self-Motivation & Independence:** Self-motivated, results-oriented, and capable of working independently to achieve business objectives.
- **Problem-Solving:** Exceptional problem-solving skills, with the ability to translate complex data into actionable insights that drive business impact.
- **Continuous Learning:** A keen aptitude for learning and adapting to the rapidly evolving AI landscape, ensuring the delivery of cutting-edge solutions.

Why Join Parikh AI?

Joining our team means becoming part of a dynamic and forward-thinking company that is leading the charge in AI innovation. You'll have access to a network of industry leaders and ample opportunities for career advancement as you work on projects that push the boundaries of technology. We offer a competitive salary and benefits package, alongside numerous professional development and growth opportunities designed to help you expand your skills and advance your career.

At Parikh AI, you'll be involved in cutting-edge projects that make a tangible impact in the AI and data analytics space. Our collaborative and inclusive work environment fosters
